13. Please give a brief description of your project idea.

The project focus is the formulation and delivery of a new five-year parish plan for the village of Witcham.

14. Please indicate why you think your project is needed

The project is needed in that the current Parish Plan expires in 2006. Since the completion of the last village appraisal in 2001, there have been a number of changes including new residents moving into the village as a result of a small-scale housing development.

The Parish Plan needs to be renewed to demonstrate that the views of such residents are taken on board as well those that have been in the village for a longer period of time.

The Parish Plan is also needed to provide some strategic direction to the work of the Parish Council over the next five years in that it will highlight the social, economic and environmental issues that Witcham residents would like to see addressed.

The Parish also needs to position itself with regard to the new Local Development Framework for East Cambridgeshire, which sets out the key housing and employment land allocations for the District between 2006-2021. Witcham, although a small village is in close proximity to a large employment land allocation (The Elean Business Park). It is also currently designated as an infill only settlement with conservation area status. As such it has an important function to play in the LDF debate in order to protect the current quality of life for residents.

The project will be assessed by the key outputs stipulated in part C. It will also be evaluated by comparing the results of the % of households consulted on the Parish Plan in 2001 compared to 2006. The baseline figure for questionnaire returns in 2001 was 77%. It is hoped that the consultation process for 2006 can improve on this figure.

■ Part C – Project details (continued)

17. Will your project continue after FastTrack funding comes to an end?..... YES NO

18. If **NO** to Question 17 please explain the long-term benefits to your local community

19. How will the project address equality of opportunity issues i.e. have you got an equal opportunities policy?

The steering group membership includes the chair of the Parish Council (Ashley Bamforth) and the Parish Clerk (Sue Bell). The Parish Council currently operates an equal opportunities policy and this will be incorporated into the Parish Plan Steering Group.

20. How will your project contribute towards the protection of the environment?

The Parish Plan consultation will highlight key environmental improvements that Witcham residents would like to see over the next five years, including those related to recycling, limiting the use of private transport and projects associated with improving wildlife/the natural environment within the village.

21. How will your project make use of ICT (Information Communication Technology)?

Wherever possible, communication between steering group members will take place via e-mail to limit the use of paper. Notes and minutes will also be available on the Witcham website www.witcham.org.uk for other residents to have access to.

The results of the main parish plan consultation will be assessed by an IT statistical package.

22. Please use the space below to provide us with any further details in support of your application, including any research undertaken.

The Parish of Witcham has a population of just 434 (source Census data 2001). As such it is one of the smallest Parishes within the district of East Cambridgeshire. As a result of this, it is more difficult to find resource within the local community to compile a detailed document such as a Parish Plan. The additional funding sought for this project will enable the key consultation method (household survey) to be outsourced and will provide an independent assessment of the current and future wishes of Witcham residents.

In addition, analysis of the census data for 2001 for Witcham reveal a number of key issues that need to be addressed;

14.7 % of residents have a limiting long-term illness

28.5 % of households have no-one in employment

78.8% of households travel to work by private transport

30% of the 16-74 population do not have any qualifications.

It is hoped that the new Parish Plan will highlight the above and recommend key initiatives and projects to improve in these areas over the next five years.
