### **Tell us what is important to you and your community.**

The East Cambridgeshire Strategic Partnership (ECSP) is currently developing the new Sustainable Community Strategy, for launch in April 2011.

The new Strategy will replace the existing Sustainable Community Strategy for 2008-2011. It will set out how services can be improved and delivered to increase the environmental, social and economic well-being of the district and will act as an overarching partnership plan for East Cambridgeshire.

In order for the new strategy to be a leading and influencing document for the area it is important that the document contain the key aspirations of all local partner organisations and the community.
